10. Failure of the Ministry of Niger Delta Affairs and the Niger Delta Development Commission to complete various Projects worth \$40 Billion initiated in the last Ten Years:

Hon. Abbass Tajudeen.

The House:

Notes that the Niger Delta Development Commission (NDDC) was established in 2000 with the mandate of developing the oil rich Niger Delta Region of Nigeria by addressing the economic and infrastructural deficits suffered by the Niger Delta Region consequent upon the exploration and exploitation of crude oil in the Region since 1956;

Also notes that in September 2008, the late President Umaru Yar'adua created the Ministry of Niger Delta Affairs to serve as the supervising Ministry for the Niger Delta Development Commission (NDDC);

Aware that aside the Constitutional provision which requires that at least 13% of the revenues generated from petroleum resources should be paid to the States from where the revenues were derived (in addition to their regular allocations from the Federation Account), the Federal Government also established the Presidential Amnesty Programme to, among other things, serve as an intervention programme to integrate and empower the restive militant groups and other inhabitants of the Region;

Also aware that in order to fast track the development of the Region, the Niger Delta Development Commission was granted a special funding mechanism outside the annual budget of the Federation to guarantee regular funding of its operations and projects;

Concerned that the Niger Delta Ministry and the Niger Delta Development Commission are alleged to have wasted over \$40 billion in the last ten years on 11,000 projects without tangible evidence of those projects in the Region, even though the contractual amounts have been fully or partially paid;

Further aware of the Report of the Ministerial Technical Audit Committee on contracts awarded by the Ministry of Niger Delta Affairs which indicted the Ministry of wasting over N700 Billion on 427 contracts in just 6 years;

Also concerned that even the Presidential Amnesty Programme of the Federal Government which is also intended to empower the inhabitants of the Region is suffering from the maladies of corruption and mismanagement of funds;

Further concerned that the establishment of the intervention programme and agencies appears to be counterproductive as there is lack of synergy among them, which is manifested in the repetition of programs and conflict of projects in the Region by the Niger Delta Affairs Ministry, Niger Delta Development Commission, the Presidential Amnesty Programme as well as States and Local Governments in the Region;

Cognizant that the contracts awarded by those agencies, apart from not conforming to extant financial laws and regulations, were in most cases awarded to foreign companies with very dubious track records, lacking in financial wherewithal and expertise to deliver on their mandates;

Disturbed that if the Management of the Niger Delta Ministry and the Niger Delta Development Commission are not able to give account of the over \$40 billion allocated to them in the last 10 years, the target of the Nigerian Government to mobilize N1.7 Trillion to the Region may have been in vain;

Equally concerned that if those crimes against the law abiding citizens of the Niger Delta Region, and by extension, Nigeria are not checked and the culprits brought to book, the citizens of the Region may be compelled to go back to the creeks and the attendant implications on the Nigerian economy and the political stability of the Nation cannot be quantified;

Resolves to:

Set up an *Ad-hoc* Committee to investigate the alleged wastage of the sum of \$40 billion on 11,000 projects by the Niger Delta Ministry and the Niger Delta Development Commission in the last 10 years and report back within eight (8) weeks for further legislative action.
