- *Second Reading*

Sen. Bassey, Gershom Henry (*Cross River South*).

MOTIONS

1. The demolition of properties in Dakwa a settlement in Tafa Local Government Area of Niger State by the Federal Capital Development Authority (FCDA) and the Non-payment of land compensation to Niger State by the Federal Government: Urgent need for intervention to prevent further demolition and encroachment by the FCDA and immediate settlement of all compensation arrears to Niger State by the Federal Government of Nigeria.

Sponsor: Sen. Musa, Mohammed Sani (*Niger East*)

Co. Sponsors:

Sen. Abdullahi, Aliyu Sabi (*Niger North*)

Sen. Bima, Muhammad Enagi (*Niger South*)

Sen. Tanimu, Philip Aduda (*F.C.T Senate*)

Sen. Umar, Sadiq Suleiman (*Kwara North*)

Sen. Mandiyya, Bello (*Katsina South*)

The Senate:

Notes with serious concern the Federal Capital Development Authority (FCDA) demolition exercise in Dakwa and other communities that are part of Tafa Local Government Area of Niger State, a boarder settlement with FCT;

Recalls that on the 21st December, 1991, Abuja officially became the country's political capital. But the move came at a huge cost to local inhabitants, especially the inhabitants from Niger State;

Aware that Abuja was chosen as the ideal place as it is located in the centre of the nation. Because of Nigeria's ethnic and religious makeup, the government deemed the then-sleepy area a neutral place for all;

Recalls that despite the Niger State Government several efforts at resolving this lingering land dispute, at many instances there had been quest for a peaceful resolution of the lingering border dispute between the two territories in Dakwa part of Tafa Local Government Area of Niger State, as well as Gwagwalada and Bwari Area Councils of FCT;

Aware that all the Four Area Councils of the FCT had continued to lay claims to the various disputed pieces of land;

Aware that there were over 800 villages who were the original inhabitants of what is called the Federal Capital Territory today. All efforts by successive governments to compensate them remained a mirage till today;

Aware also Most of this original inhabitants were resettled in places with no water and no land to farm. All the water, electricity and schools they were promised till date are not provided by the FCT Administration or the Federal Government of Nigeria;

Worried that these people are left neglected and are today impoverished and yet faced with another systematic land encroachment and demolition by those that should have compensated them for the land taken over;

Concerned that there is inherent danger that may cost lives and properties, as most inhabitants of Dakwa and other resettled communities in Niger State despite having title documents for their lands from Niger State are aggrieved as they are faced with illegal demolition. They believe is that the FCDA has exhausted its Abuja land in that axis and is now seeking to encroach and disposes them of their legally acquired lands through desperate unlawful means;

Afraid that the action of FCDA is capable of endangering the lives of law abiding citizens. And if no action is taking urgently to intervene in this matter to avert a foreseeable disaster, to save lives and properties and the disruption of economic activities within the FCT in finding ways to resolve the issues amicably; and

Further believes that the intervention of this Senate will definitely enable the speedy resolution of this matter of land dispute and settlement of compensation.

Accordingly resolves to:

- i. *Urge* the Hon. Minister of the Federal Capital Territory to direct the FCDA to as a matter of urgency to stop further demolition and desist from any encroachment and on the Dakwa Land and other communities that are part of Niger State boundary and vacate any part of this land that has been encroached upon.
- ii. *Mandate* its Committee on Federal Capital Territory and that of States and Local Government to investigate this matter, and ensure that all boarder matters with Niger State regarding the land issues in Abuja are settled amicably.
- iii. *Mandate* its Committee on States and Local Government to investigate the non-payment of compensation to all the affected communities in Niger State despite some actions taken by the Federal Government in the past to compensate Niger state regarding the land issue in Abuja.

2. The need to Upgrade, Decongest and Disinfect Correctional Centers Nationwide.

Sponsor: Sen. Ekwunife, Uche Lilian (*Anambra Central*)

The Senate:

Notes that Nigerian maintains about 250 correctional centers formerly known as prisons, comprising of maximum, minimum, satellite prisons and others, accommodating about 74,000 inmates, spread all over various locations in the country;

Worried that of the 74,000 inmates, only 24,000 are convicted, while the remaining 50,000 are awaiting trials. Report from National Bureau of statistics covering the period from 2011 to 2015, shows that 72.5% of Nigeria's total prison populations are serving time while awaiting trial. This number include also, those with petty issues such as shoplifting and traffic offences. The unfortunate aspect being that some of these inmates must have spent more time in prison than they would have served if convicted;

Very worried that it is common knowledge that overcrowding has created a very unhygienic and in humane environment in our correctional centers. Indeed, overcrowding is one of the biggest challenges faced by the inmates. Facilities meant for say 800 inmates now hold about 4,000 inmates. These congestions have over the years been responsible for outbreak of diseases in our correctional centers, orchestrated also by poor medical facilities. God forbid, if epidemic such as Corona virus or lasser fever outbreak should occur in these centers, it will be totally uncontrollable and a national disaster which can spread out into the general public;

Concerned that although our Prisons have been given the new name "Correctional Centers", they are so by names only, they are in no way near the standards of Correction Centers anywhere in the world. In many instances, first offenders are lumped up with hardened criminals. This singular act has virtually turned what should have been a Correctional Center into places where new criminal gangs are formed. Confessions from recently arrested bank robbery gang members, and the confession of the first armed robber to be publicly executed in this country corroborates this position, that in prisons, "first offenders learn from hardened criminals". As a correctional center, infrastructure must be improved and provisions made for correctional facilities such as academic, skilled training, and recreational facilities.

Accordingly resolves to:

Urge the Nigeria Prison and Correctional Services to adequately profile inmates and separate them accordingly to avoid lumping of light/first offenders with hardened criminals and undertake a National Clean Up and Fumigation of all correctional facilities in the country to avoid outbreak of epidemics;

- i. *Urge* the Ministry of Interior to commence the process of upgrading facilities in our prisons to truly transform them into correctional centers;
- ii. *Urge* the Judiciary, the Ministry of Interior and Nigerian Prison Services to work together and come up with a workable modality on how to fast track the process of decongesting the correctional centers in the country; and
- iii. *Urge* its Committees on Interior, and committee on Judiciary, Human Rights and Legal Matters to undertake a critical oversight on the state of our correctional centers and report back to the Senate within 4 weeks.
