 11. A Bill for an Act to Provide for Establishment of a Board to be Responsible for the Regulation of Health Education Practitioners and for Related Matters (HB. 891) (*Hon. Shagaya Tolani*) – **Second Reading.**
-

MOTIONS

12. **Need to Enhance the Production and Boost the Exportation of Coconut:**
Hon. Bello Isah Ambarura.

The House:

Notes that Coconut, ranked 20th globally and 5th in Africa, is a highly sought-after cash crop with health benefits and economic value in Nigeria, producing approximately 225,500 thousand metric tonnes annually, as reported by the Food and Agriculture Organisation (FAO:2023);

Also notes that despite the viability of coconut potential in Nigeria, the Federal Government is yet to fully utilise the huge potential of the coconut industry;

Further notes Nigeria, despite its significant contribution to the International Coconut Market, is not a member of the International Coconut Community (ICC), which includes African countries like Kenya, Tanzania, and Ghana;

Aware that the Federal Ministry of Industry, Trade and Investment and Federal Ministry of Agriculture and Food Security, in conjunction with the National Coconut Producers, Processors and Marketers Association of Nigeria (NACOPPMAN), is working to make Nigeria the largest coconut producer and processor in Africa, and to support private sector coconut businesses by providing seedlings for production;

Also aware that the coconut industry in Nigeria has the potential to generate significant foreign exchange and boost the Gross Domestic Product (GDP) in billions of dollars if proper attention is given to its production and processing;

Worried that African countries with less coconut potential are investing and improving the sub-sector, contributing to the global coconut industry, while Nigeria is missing in action;

Convinced that the Federal Government's support in coconut production and Nigeria's membership in the International Coconut Community will boost revenue, wealth generation, and export statistics in the lucrative coconut industry;

Resolves to:

- (i) urge the Federal Ministries of Industry, Trade and Investment and Foreign Affairs to register Nigeria with the International Coconut Community (ICC) as obtained with relevant bodies for commodities such as cocoa, palm, sugar, rubber;
- (ii) also urge the Federal Ministry of Agriculture and Food Security in collaboration with the Federal Ministry of Industry, Trade and Investment and the National Coconut Producers, Processors and Marketers Association of Nigeria to classify coconut as a national crop and to make budgetary provisions for six million coconut seedlings annually for five years plan to be distributed and planted in geo-political zones;
- (iii) further urge the Federal Ministry of Environment, Raw Materials Research and Development Council, and the National Agency for the Great Green Wall to prioritise and make budgetary provisions for coconut to address land degradation and desertification, boost food security and support communities to adapt to climate change;
- (iv) urge the Central Bank of Nigeria to include coconut in the Export Facilitation Initiative, Agricultural Credit Guarantee Scheme, and other special intervention funds as obtained on commodities like cocoa, rubber, sesame seeds, etc., for coconut farming and processing for value addition and production of useful by-products;
- (v) mandate the Committees on Agriculture Production and Services and Industry and report within four (4) weeks for further legislative action.

13. Need to Strengthen Security Infrastructure in Rural Communities of Kebbi State and other parts of the Country:

Hon. Ibrahim Mohammed:

The House:

Notes the rising wave of insecurity across rural communities in Nigeria, particularly in Kebbi State, where incessant attacks by bandits, cattle rustlers, kidnappers, and other criminal elements have continued to disrupt farming, displace residents, and threaten livelihoods leading to the abandonment

of farmlands, forced school closures, disrupted health services, and severely undermined economic activities in agrarian communities;

Concerned that many affected communities lack the presence of security personnel, and even where security formations exist, they are under-resourced, under-staffed, and ill-equipped to respond effectively to security threats;

Also concerned that the absence of modern security infrastructure such as patrol vehicles, communication systems, surveillance technology, and operational bases—limits the operational capacity of law enforcement agencies;

Aware that the Nigerian Constitution under Section 14(2)(b) provides that the security and welfare of the people shall be the primary purpose of government;

Convinced that strengthening rural security architecture will not only restore peace and public confidence but also boost agricultural production, reduce internal displacement, and enable community development;

Resolves to:

- (i) urge the Federal Government, through the Federal Ministry of Interior and the Nigeria Police Force, to establish, upgrade, and adequately equip police outposts and security stations in identified rural flashpoints across Kebbi State and other affected parts of the country;
- (ii) also urge the Ministry of Police Affairs and the Nigeria Security and Civil Defence Corps (NSCDC) to deploy more personnel and provide mobility, surveillance equipment, and communication tools for rural patrol operations;
- (iii) further urge the Federal Ministry of Finance, Budget and National Planning to prioritise funding for rural security infrastructure in the 2026 Appropriation Bill;
- (iv) call on state governments, traditional institutions, and community-based organisations to partner with security agencies in intelligence gathering and peacebuilding initiatives;
- (v) mandate the Committees on National Security and Intelligence, Police Affairs, and Army to undertake an urgent assessment of security gaps in rural communities and recommend appropriate policy and budgetary interventions;

14. Need to Investigate the Federal Scholarship Board's Alleged Abuse of Process, Breach of Terms of Engagement, and Failure to Pay Scholarship Stipends to Nigerian Students in Diaspora.
Hon. Chike Okafor:

The House:

Notes the alleged abuse of process, breach of terms of engagement, and failure to pay scholarship stipends to Nigerian students in diaspora under government-sponsored scholarships and bilateral education agreements;

Aware that the Federal Scholarship Board (FSB), under the Federal Ministry of Education, is responsible for administering scholarships to Nigerian students at home and abroad, and the implementation of terms and agreements is solely their lawful responsibility for the welfare of Nigerian students in the diaspora;

Worried about the outcry by the Union of Nigerian bilateral education agreements, scholars, and alleged odious mistreatment and starvation of funds, which has led students into unholy survival struggles endangering their lives leaving many vulnerable to danger;

Cognizant that if the future leaders of Nigerians are abandoned in foreign lands due to administrative inefficiencies or corruption, it is a reflection of poor commitment to education and youth development, and as the people's representatives, legislators are under social contracts to protect Nigerian scholars on scholarships abroad from abuse and humiliation;

Worried that Nigerian scholars abroad face delays, non-payment, and unexplained deductions, causing financial distress and tarnishing the country's international image, thus undermining the scholarship program's objectives of fostering human capital development;

Resolves to:

mandate the Committees on Diaspora, University Education, Foreign Affairs, and Anti-Corruption to thoroughly investigate the operations of the Federal Scholarship Board on the alleged mismanagement of scholarship funds and stipend payments from 2015 to date to find a lasting solution to support Nigerians studying abroad on scholarships.

15. Need for a Transparent and Equitable Allocation of forfeited Abuja Estate handed over to the Ministry of Housing by Economic and Financial Crimes Commission (EFCC):

Hon. Jafaru Gambo Leko:

The House:

Notes the recent handover of a large Estate comprising 753 duplexes and apartments located at Plot 109, Cadastral Zone C09, Lokogoma District, Abuja, by the Economic and Financial Crimes Commission (EFCC) to the Federal Ministry of Housing and Urban Development, following a final forfeiture order granted by the Federal High Court;

Also notes that the Estate, covering over 150,000 square meters, was originally acquired through proceeds of unlawful activities allegedly linked to the former Governor of the Central Bank of Nigeria (CBN), and its recovery represents a significant milestone in the nation's anti-corruption efforts;

Aware that the Estate, if properly managed, could contribute meaningfully to addressing the severe housing deficit in Nigeria, currently estimated at over 17 million housing units, particularly in urban centres such as Abuja;

Concerned that without a transparent, accountable, and equitable framework for the allocation of such public assets, there is a risk that these recovered properties would fall into the hands of privileged elites, thereby defeating the purpose of asset recovery and denying ordinary Nigerians access to decent housing;

Also concerned that the absence of a publicly available beneficiary selection process or legislative oversight over such transfers may erode public confidence in the sincerity of government's anti-corruption and social justice programmes;

Recalls the constitutional obligation of government at all levels to ensure the welfare of citizens, particularly in securing adequate shelter as enshrined under Chapter II of the Constitution of the Federal Republic of Nigeria 1999 (as amended);

Resolves to:

- (i) urge the Federal Ministry of Housing and Urban Development to:

- (a) develop and publish a transparent and inclusive allocation framework for the recovered estate, prioritizing low- and middle-income earners, internally displaced persons, and vulnerable groups and submit a comprehensive report to the House within 60 days on the proposed use, allocation criteria, and beneficiary selection for the estate;
 - (b) institutionalize a national database of forfeited assets, with mechanisms for public tracking and civil society oversight, to promote accountability and public trust;
- (ii) mandate the Committee on Housing and Habitat to liaise with Federal Ministry of Housing and Urban Development ensure the allocation process is guided by principles of equity, fairness, and transparency and report within four weeks (4) for further legislative action.

16. Persistent Non-functionality of State-owned Refineries:

Hon. Sesi Oluwaseun Whingan:

The House:

Notes the persistent non-functionality of Nigeria's state-owned refineries in Port Harcourt, Warri, and Kaduna, despite over two decades of rehabilitation efforts and an estimated expenditure of \$18 billion on the turnaround maintenance, with no tangible results to show;

Also notes the recent public statements by Nigeria's foremost industrialist, Alhaji Aliko Dangote, and former President Olusegun Obasanjo, expressing doubts about the viability of these refineries and describing the multi-billion-dollar investments as futile, sparking widespread public concern and outrage over potential mismanagement;

Recalls that in 2007, during the administration of President Olusegun Obasanjo, Alhaji Dangote and other private investors acquired the refineries, but the succeeding administration of President Umaru Musa Yar'Adua reversed the transaction, opting instead for rehabilitation using public funds, a decision that has yielded no significant operational improvements;

Concerned that on Thursday, July 10, 2025, the Group Chief Executive Officer of NNPC Limited, Engr. Bayo Ojulari, in an interview published by the Punch newspaper, sought to distance the current administration from the monumental mismanagement of Nigeria's state-owned refineries in Port Harcourt, Wari, and Kaduna, confirming their continued non-functionality despite significant investments estimated at \$18 billion, and proposed the potential sale of these assets, thereby raising critical questions about fiscal responsibility, strategic asset management, and the long-term implications for Nigeria's energy security and economic stability;

Worried that despite consistent annual budgetary allocations in Appropriation Acts over several years, there is no verifiable evidence of substantial rehabilitation outcomes, representing a gross misuse of public funds and a betrayal of public trust;

Aware that Nigeria's economic stability and energy security are inextricably linked to a functional and accountable downstream petroleum sector, particularly following the removal of the petrol subsidy by the current administration, which underscores the urgent need for operational refineries to mitigate economic hardship;

Convinced that a comprehensive, transparent, and time-bound investigation by the House is essential to:

- (i) ascertain the current operational and structural status of Port Harcourt, Wari, and Kaduna refineries;
- (ii) examine the utilisation of all allocated funds and the effectiveness of rehabilitation efforts;

- (iii) identify any infractions, mismanagement, or corrupt practices in the management of these assets;
- (iv) propose actionable reforms to safeguard future public investments and ensure the sustainability of Nigeria's oil and gas infrastructure.

Resolves to:

Set up an ad hoc committee, composed of members drawn from the Committees on Petroleum Resources (Upstream and Downstream), Public Accounts, Anti-Corruption, Finance, and Legislative Compliance, to investigate funds appropriated and disbursed for the rehabilitation of the Port Harcourt, Warri, and Kaduna refineries between 2010 and 2024, ascertain the status of the refineries, examine how public funds were utilised and identify agencies responsible for infractions or mismanagement and report within four (4) weeks for further legislative action.

CONSIDERATION OF REPORTS

17. Committee on Finance:

Hon. James Abiodun Faleke:

“That the House do consider the Report of the Committee on Finance on the issue from the Statutory Revenue Fund of the Revenue Mobilisation Allocation and Fiscal Commission the total sum of (₦105,140,926,744.08) one and five billion, one hundred and forty million, nine hundred and twenty-six thousand, seven hundred and forty-four Naira, eight kobo out of which the sum of (₦20,636,277,973.19) twenty billion, six hundred and thirty-six million, two hundred seventy-seven thousand, nine hundred and ninety-three Naira, nineteen Kobo is for Personnel Cost, the sum of (₦8,949,992,489.81) eight billion, nine hundred and forty-nine million, nine hundred and ninety-two thousand, four hundred and eighty-nine Naira, eighty – one Kobo is for Overhead Cost while the sum of (₦75,554,656,281.08) seventy-five billion, five hundred and fifty-four million, six hundred and fifty-six thousand, two hundred and eighty-one Naira, eight Kobo is for Capital Cost for the financial year ending 31 December 2025” – (*Laid: 23/7/2025*) *Committee of Supply*

18. Committee on Aids, Loans and Debts Management:

Hon. Abubakar Hassan Nalaraba:

“That the House do consider the Report of the Committee on Aids, Loans and Debts Management on the Proposed 2025 – 2026 External Borrowing (Rolling) Plan and approve recommendations therein” (*Laid: 23/7/2025*) *Committee of Supply*.

Committee's Findings

- (i) The Committee noted as follows: In connection with the Lagos-Calabar Coastal Highway Project, the total loan size for the section 1 of phase 1 of the Project is USD\$747,000,000.00 (Seven Hundred and Forty-Seven Million Dollars) as opposed to the USD\$700,000,000.00 stated in the draft Borrowing Plan. This is because as of the time of transmission of the plan to the National Assembly, the lead arranger for financing only had financing commitments of up USD\$700m from lenders. The shortfall in the financing was covered ultimately by Export Credit Agencies. This therefore necessitates the need to increase the value of the financing for the Project by \$47 million to ensure it aligns with the loan size agreed in the finance documents for the Project.
- (ii) The Nigeria Universal Communications Access Project, a landmark telecommunications infrastructure project targeted at bridging the digital divide through the deployment of 7,000 telecommunications towers across underserved and unserved communities in Nigeria and pivotal to advancing the Government's Renewed Hope Agenda and accelerating sustainable economic growth and development was inadvertently omitted in the computation of the Borrowing Plan. The omission of this critical project will cause significant harm to public interest. Total Facility of the project is USD\$ 300 million (Three Hundred Million Dollars Only).

- (iii) the borrowing plan does not equate to actual new borrowing for the 2025 fiscal year as it has already been captured in the Medium-Term Expenditure Framework (MTEF) covering both the federal and subnational governments as indicated in table 2.

Table 2: Summary of External Borrowing Plan by Tier of Government

S/N	Title	USD \$	Euro €	JPY
1	Federal	15,630,777,911.99	1,718,856,324.54	15,000,000,000
2	Federal and States Project	2,730,000,000.00		
3	Cluster States Projects	606,700,000.00	120,000,000.00	
4	States	2,922,850,000.00	355,000,000.00	
	Total	\$21,890,647,911.99	€2,193,856,324.54	15,000,000,000

- (iv) Most MDAs are unable to implement their capital projects effectively due to long delays in funding disbursements. The loans will go a long way to address this challenge. Inclusion of these projects in the National External Borrowing Plan will enable financial closure and timely implementation.
- (v) The projects were selected based on positive economic evaluation as well as the expected contribution to the socio-economic development of the Country including employment generation, skills acquisition, support for the emergence of more entrepreneurs and poverty reduction
- (vi) The proposed borrowing will be sourced from Nigeria's development partners (as indicated in table 1) that offer concessional financing involving low interest rates, moratorium and long repayment periods, thereby supporting Nigeria's development objectives sustainably.
- (vii) The loans are meant to support the Federal Government in strengthening financial and human resources' management in basic education and primary healthcare sub sector.
- (viii) Part of the loans will also be used to fund priority projects such as Railways, Security, Agriculture, Power Plants, Housing and Digital connectivity to boost productivity. Projects such as the Hope Health Education and Governance (\$1.5 b); Construction of Fibre Optics network across Nigeria (\$980m); Sustainable Power and irrigation for Nigeria project (\$500m), and Rural Access and Agricultural Market project scale up (\$500m) to name a few, will create millions of direct and indirect jobs, lower food inflation and lead to increased export earnings, supporting external reserves and stabilizing the naira.
- (ix) Unlike loans, the grant component (€65m) does not require repayment which provides a rare opportunity for climate resilience, and gender empowerment.
- (x) Despite the additional borrowings, the Federal Government's debt portfolio remains sustainable. At over N145 trillion, debt to GDP ratio of about 50% is within international threshold (56%). The current administration has succeeded in reducing the high debt service to revenue ratio from over 90% to less than 70%.

- (xi) The FG's capacity to service the new debt is bolstered by the anticipated Revenue Gains from the Nigerian Tax Act 2025 projected to grow by over 18% year-on-year starting from 2026. This revenue expansion reduces the risk of future debt distress and provides a buffer for debt servicing.
- (xii) The proposed loans are spread across multiple concessional sources with long tenors and low interest rates. As such, the additional debt will have an insignificant impact on debt servicing obligations in the short term, while ensuring catalytic investment in critical sectors that make room for improved domestic resource mobilization.
- (xiii) The Committee further noted that 12 States; Abia, Bauchi, Borno, Gombe, Kaduna, Katsina, Lagos, Niger, Oyo, Sokoto, Yobe, and Zamfara will benefit from concessional loans for various infrastructural projects including Roads, Clean Energy, Waterways, as well as Human Capital Development notably Education and Healthcare.

Recommendation

approve the President's request for a total facility for various projects and programmes under the 2025-2026 External Borrowing (Rolling) Plan comprising USD21,890,647,912 and €2,193,856,324.54 and JPY15,000,000,000 and Grant of €65,000,000 respectively.

19. Committee on Aids, Loans and Debts Management:

Hon. Abubakar Hassan Nalaraba:

"That the House do consider the Report of the Committee on Aids, Loans and Debts Management on the Proposed Request for the Approval for the issuance of Federal Government of Nigeria Bonds to settle outstanding Pension Liabilities under the Contributory Pension Scheme and approve recommendations therein" (*Laid: 23/7/2025*) *Committee of Supply*.

Findings and Observations

- (i) Sections 15(1) and 39(2-3) of Pension Reform Act – Recognise the accrued pension rights of employees for services rendered before the commencement of the implementation of the PRA, 2004 in Nigeria and mandates the FGN to set aside 5% of its monthly wage bill into Redemption Fund to settle such past pension liabilities and National Pension Commission to determine any shortfall in this regard;
- (ii) Section 15(4) of Pension Reform Act – Guarantees the right of retirees to pension review in line with provisions of the 1999 Constitution (as amended) which provides that pension shall be reviewed every five (5) years or whenever salaries are reviewed;
- (iii) Section 6(2) of Pension Reform Act – Requires FGN to fund the shortfall in the Retirement Savings Accounts (RSAs) of eligible University Professors who are to retire on their full salary in line with extant laws, and
- (iv) Section 82(2) of Pension Reform Act – Establishes the Pension Protection Fund and mandates FGN to contribute annual subvention of 1% into the Fund to part finance minimum Pension Guarantee for retirees whose RSA balance had depleted while receive pension.
- (v) The House is invited to note that FGN has not been complying with the implementation of the above provisions of the PRA 2014 over the years due to revenue challenges leading to accumulation of pension arrears with the attendant hardship to retirees. To settle the accrued pension liabilities as of December 2023 in the

- (vi) sum of Seven Hundred and Fifty-seven Billion, Nine Hundred and Eighty-three Million, Two Hundred and Forty-six Thousand, Five Hundred and Seventy-one Naira
- (vii) (₦757, 983,246,571.00) only, the Government has decided to raise funds through the issuance of FGN Bonds in the domestic debt market. The proposed issuance of FGN Bonds to settle outstanding pension liabilities was approved by the Federal Executive Council in its Meeting held on February 4, 2025.

Recommendations

approve the sum of Seven Hundred and Fifty-seven Billion, Nine Hundred and Eighty-three Million, Two Hundred and Forty-six Thousand, Five Hundred and Seventy-one Naira (₦757, 983,246,571.00) only, to be raised through the issuance of FGN Bonds in the domestic debt market.

20. Committee on Aids, Loans and Debts Management:

Hon. Abubakar Hassan Nalaraba:

“That the House do consider the Report of the Committee on Aids, Loans and Debts Management on the Proposed Request for Approval for Establishment of Foreign Currency denominated issuance Programme in the Domestic Debt Market and approve recommendations therein” (*Laid: 23/7/2025*) *Committee of Supply*.

Findings and Observations

- (i) This request is pursuant to the provisions of Section 44(1-2) of the Fiscal Responsibility Act (FRA) 2007, which requires the approval of the National Assembly (NASS) for all New Borrowings and Section 1(7) of the capital raising. Further to the provisions of the FRA 2007 which defines, the Use of Proceeds of all borrowings and requires Cost-Benefits Analysis of capital raising.
- (ii) This initiative is anchored on the Presidential Executive Order No. 16 of 2023 titled “Foreign Currency Dominated Financial Instrument Local Issuance Programme and Related Matters Order, 2023 dated 19 October 2023.”
- (iii) The Programme aligns with Nigeria’s macroeconomic objectives to diversify funding sources, strengthen the domestic financial markets, and integrate non-formal foreign currency holdings into the national economy.

Recommendations

approve the capital raising of up to USD 2.00 billion in the Domestic Debt Market towards the implementation of the Presidential Executive Order on Foreign Currency Denominated Financial Instrument Local Issuance Programme.

21. Committee on Communications:

Hon. Peter Ohiozogh Akpatason:

“That the House do consider the Report of the Committee on Communications on the issue from the Statutory Revenue Fund of the Nigerian Communications Commission the total sum of two hundred and seventy-two billion, four hundred and thirty-three million, eight hundred and five thousand Naira (₦272,433,805,000.) only, out of which (₦95, 668, 842. 00) ninety - five billion, six hundred and sixty-eight million, eight hundred and forty-two thousand Naira only, is for Recurrent Expenditure, (₦10, 735, 141. 00) ten billion, seven hundred and -thirty – five million, one hundred and forty-one thousand Naira, only is for Capital Expenditure, (₦30, 130, 436) thirty billion, one hundred and thirty million, four hundred and thirty -six thousand Naira only, is for Special Projects while the sum of (₦15,000,000,000) Fifteen Billion Naira only, is for Transfer to Universal Service Provision Fund (USPF), (₦120, 836, 033) one hundred and twenty billion, eight hundred and thirty – six million, thirty - three thousand Naira, only is for Transfer to Federal Government and (₦63, 352) sixty -three thousand and three hundred and fifty-two Naira, only is surplus/deficit transfers for the financial year ending 31 December (*Laid: 22/7/2025*).

issue from the Statutory Revenue Fund of the Nigerian Communications Commission the total sum of two hundred and seventy-two billion, four hundred and thirty-three million, eight hundred and five thousand Naira (₦272,433,805,000.) only, out of which (₦95, 668, 842. 00) ninety - five billion, six hundred and sixty-eight million, eight hundred and forty-two thousand Naira only, is for Recurrent Expenditure, (₦10, 735, 141. 00) ten billion, seven hundred and –thirty – five million, one hundred and forty-one thousand Naira, only is for Capital Expenditure, (₦30, 130, 436) thirty billion, one hundred and thirty million, four hundred and thirty -six thousand Naira only, is for Special Projects while the sum of (₦15,000,000,000) Fifteen Billion Naira only, is for Transfer to Universal Service Provision Fund (USPF), (₦120, 836, 033) one hundred and twenty billion, eight hundred and thirty – six million, thirty - three thousand Naira, only is for Transfer to Federal Government and (₦63, 352) sixty -three thousand and three hundred and fifty-two Naira, only is surplus/deficit transfers for the financial year ending 31 December, 2025

Nigerian Communications Commission (NCC) 2025 BUDGET SUMMARY
