3. A Bill for an Act to secure Computer Systems and Networks and Protect Critical Information Infrastructure in Nigeria by Prohibiting Certain Undesirable Computer-based Activities and for Matters Connected Thereto, 2006 (HB. 214) — *Second Reading*.

CONSIDERATION OF REPORT

Joint Committee on National Security and Intelligence **and Foreign Affairs:**

Hon. Yusuf Dikko:

„That this House do consider the Report of the Joint Committee on National Security and Intelligence and Foreign Affairs on the Review of the Report of the United States' National Intelligence Council titled "Mapping iSub-Saharan Africa's Future" and approve the Recommendations therein" (*Laid: 5/10/2006*).

' Recommendations:

- (I) ____ This and incoming administrations, must do something unprecedented in tackling the eradication of poverty and unemployment through an appropriate and revised poverty eradication scheme that will provide micro-finance and direct micro credit to agriculture, trade and most especially women;
- (II) improve the capacity and resources, including training, to raise the skill and professionalism of security operatives;
- (iii) raise the level of development by making sure resources allocated to delivery of public services are not diverted. Good governance is the best answer to restiveness and instability. The National Assembly must ensure that adequate resources are allocated to capital projects to improve infrastructure and, through its oversight functions, ensure a greater implementation of these allocations;
- (iv) all elections, especially the 2007 elections must not only be credible, they must be seen to be credible in Nigeria. Elections provide the avenue for breakdown of law and order and efforts must be made to avert such happening. Specifically the Independent National Electoral Commission (INEC) should be directed to instruct Resident Electoral Commissioners (RECs) to ensure that the quality and maturity of *ad-hoc* or temporary election staff is of the highest standards as these staff are often accused of manipulating elections;
- (v) government, both the legislative and executive arms, must demonstrate commitment to the rule of law as violation of the Constitution and contempt for court orders create the environment for breakdown in the social order. The future of our nation hinges on our ability to build and strengthen democratic institutions;
- (vi) improve the performance of anti-corruption institutions, considering that corruption diminishes the quality of governance and political stability; there is also every need to ensure that the anti-corruption drive is conducted in accordance with the principles of Rule of Law;
- (vii) call on all political parties and stakeholders to ensure that there is improvement in the capacity and competence of Legislative Houses at the State level;
- (viii) the issues of environmental degradation and overall development in the Niger Delta should be addressed by making available adequate resources and ensuring the prudent and sound management of these resources; and
- (a) address the issues of ethnic and religious conflict, bearing in mind that these conflicts have an economic undertone fed by the pervasive poverty of citizens who fall back on ethnic affiliation or resort to religion as an escape route out of the poverty trap.

COMMITTEE MEETING

	<i>Committee</i>	<i>Date</i>	<i>Time</i>	<i>Venue</i>
