ORDERS OF THE DAY

MOTIONS

1. The need for an investigative audit in respect of contracts that were awarded and paid for in the past by TetFund but are yet to be executed.

Sen. Jibrin Barau (*Kano North*)

The Senate:

Notes that in the past years, the Tertiary Institutions Intervention Fund, TetFund has had to award numerous contracts for the benefits of several higher institutions across the country in keeping with the statute that established the Agency;

Observes that these contracts were meant for projects spread across various levels of tertiary institutions such as universities, polytechnics, colleges of education etc, deemed as urgently needed to improve on the quality of teaching, learning and research in the institutions;

Further notes that in spite of the good intention of TetFund in awarding the contracts, some of the contractors, who are yet to be identified, allegedly collected the project monies and walked away without executing the contracts;

Conscious of the existing deficits in the infrastructural needs of all tertiary institutions in the country, and the allegations that some contractors that were awarded contracts by TetFund have absconded with monies given to them for the contracts without executing the jobs;

Determined that in strict compliance with the recent pronouncement of the President of the Senate towards the renewed commitment of the Senate to exposing corrupt practices in all the facets of the Nigerian Society and bringing culprits to justice,

Accordingly resolves to:

Mandate the Senate Committee on Tertiary Institutions and TetFund to conduct an investigation to ascertain the contractors who collected monies belonging to TetFund in the past but absconded without performing such contracts to specification and to report back to the Senate its findings and recommendations for further action.

2. Urgent need for the Federal Government to intervene in Ladoke Akintola University of Technology imbroglio in Order to save the future of the innocent Youths.

The Senate:

Notes that Ladoke Akintola University of Technology, Ogbomoso (LAUTECH) was established in Oyo state in April 1990 to cater for inadequate supply of tertiary education in the state and Nigeria at large;

Aware that the following year, Osun state was split from Oyo state trapping LAUTECH in a dilemma of having two separate parents thereby making LAUTECH a shared responsibility of both states;

Disturbed that LAUTECH which hitherto had the reputation of being the best state-owned university in the country now had nothing to her credit than the reputation of being the most strike-ridden university in the country as the university cannot escape an academic year without going on strike for 10 months or more, due to persistent non-payment of salaries of the members of staff;

Worried by the fact that the university is currently in the middle of a strike which has crippled the activities of the university for more than a year due to the inability of the parent states to provide the sum of ₦4 billion to pay the accumulated salaries and arrears of members of staff and thereby leaving over 3000 members of staff of the university wallowing in economic hardship and poverty;

Saddened that the careers of over 34,000 students of the university are currently under jeopardy turning them to social miscreants and leaving the parents who have labored to give their wards quality education languishing in pains and agonies for no fault of theirs;

Notes that the current pitiable situation of LAUTECH has pathetically shown that the continuous joint-ownership in the management of the affairs of the university by the parent states is difficult and it has become necessary for the Federal Government to intervene and review this nature of ownership;

Observes that youths are the future of every nation and education is simply the soul of a society as it passes from one generation to another, therefore leaving the education of our youths in crisis is subjecting our nation to malady,

Accordingly resolves to:

- i. Urge the federal government to find immediate solution to the problem by injecting the fund presently needed for the school to re-open immediately; and
- ii. Urge the Federal Government to set up a committee that will look into the whole situation in order to provide permanent solution by taking over the institution.
